Here's sample of what prior attendees have to say about the Designated Risk Manager seminar:

"I now know how I can significantly impact our company's bottom line. By reducing our exposure we win two ways – lowering our insurance costs and avoiding the hidden costs of loss."

"The group interaction was fantastic! Listening to how other companies are implementing their risk management programs will give all of us further ideas on how to bring more profit to the bottom line."

"This is a workshop that is necessary for all managers. I really would like to see you expand the program into more states but if not, I would like to request that it is conducted at our company for all our store managers."

"Overall, this seminar was perfect."

"Great course, both as a refresher and to get new ideas and information. Dealerships that have not attended are behind the curve and I would highly recommend this program!"

"I was expecting a dry, boring presentation because that's the nature of the beast. Just the opposite was true – very informative and educational. I'm glad I took the time to attend."
